ÇamlıYaka Konakları Manifest

We all want to get away from the chaos of the city and get back in touch with nature, but life doesn't allow it, forcing us live a certain way. It's not we who've transformed our living spaces into dwellings we drop in on from one evening to the next, it's life itself! At Ege Yapı, we come up with new ideas for every project by considering how the world is now. We don't create houses, but new living spaces.

First, as a team, we talk about our common dreams and what we expect from life, laying everything out on the table. As we create our living spaces, our projects go far beyond the ordinary. For us, a house should do much more than fill the need for shelter! We work day and night, so all our projects are a wonder of design, down to the finest detail. We follow the world and technology. We read, we research, we experiment and we practice. We have children, we have things we love and things we don't! Just like you!

We try to think like you, to empathize with you... For example, we don't want our little ones to travel far in the dark early mornings just to go to a good kindergarten. We don't want to have to wait for Sundays to feel real earth beneath our feet. Or wait for holidays to get a glimpse of nature... We get frustrated from our narrow spaces just like you. We don't want months, or even years to pass without seeing our next-door neighbors.

We know there's so much more to life than just saying "Hello". Being able to share life and being close to everything!

And we want future generations to grow up with this same drive as well.

As we created the ÇamlıYaka Fairytale, we thought about your needs, what you want from a new life and of course, your children.

We wanted it to be a fairy tale that can connect you to nature without leaving the city!

A fairy tale that will make you feel luxury with every step; that will turn every morning you wake up into the morning of the longest vacation you've ever been on; that gives you peace of mind every day. Before you start wandering around in this fairy tale, know that we are celebrating a unique future with ÇamlıYaka Konakları.

Birds

will sing in your dreams, and

fairy tales

will come true!

A new life awaits you, straight out of a fairy tale, in the heart of nature.

Çekmeköy

is the place to be in

Istanbul

Once host to many historic pleasures and a place known for its colorful geography, Çekmeköy is where iconic bliss is taking root in the ÇamlıYaka Konakları... Çekmeköy, which is urbanizing in a fast and coordinated way with a horizontal focus, with its large green areas and four seasons in living nature, brings back those old feelings you thought you'd forgotten in the ÇamlıYaka Konakları where dreams come true.

Istanbul

You're in a fairytale which will become a gift for the future

Four seasons in nature's greenness, like a holiday; fewer floors, more serenity! A world with comfort as its axis, with nature at its center, without leaving the city; you're in a new life. Çamlıyaka Konakları, built on a land area of approximately 19 thousand square meters, with 3+1, 4+1, 5+1 terraced houses with private gardens. With the things you value, you're in a fairytale which will be a gift for the future.

You can hear
the sound of nature

In Çekmeköy, part of its attraction is the unique texture of its nature, and there are 17 endemic plant species which are unique to its geography. These plants make the nature of Çekmeköy special. In an endemic life, mostly in green areas; ÇamlıYaka Konakları decodes green dreams and redefines tranquility.

Feel as free as colorful kites in the sky

One hectare of a pine forest absorbs 30-40 tons of dust per year. Surrounded by pine forests, Çekmeköy offers 99% less dusty air than a treeless development. A fully grown pine tree produces enough oxygen every day for a thousand people, and in the pine forests of Çekmeköy, you'll breathe freely, indeed...

You'll feel the freshness of 99% cleaner air in ÇamlıYaka Konakları, where you'll live in luxurious terraced houses with private gardens as the cycles of nature progress around you.

Happiness in the pine forests

Forests form
56%
the oxygen in the air.

Cleaner
air

Cooler in summers,
warmer in winters

Less radiation

Forests absorb
electromagnetic radiat

Forests have a more balanced climate because of the carbon they store.
They regulate temperatures like a heat buffer.

Tie a rope to the stars, and swing to your dreams

ÇamlıYaka Konakları break the mold of the ordinary with its spacious courtyard and unique social facilities. With playgrounds, outdoor sports facilities, cycling trails, and outdoor pools, children's laughter in the heart of greenery becomes a magnificent reality.

Social areas

With restaurants, cafes and a sports center, your social life will be full of color along the main street where you can meet your daily needs.

Outdoor Pools

You can dive in whenever you want a taste of vacation living...

Hiking and cycling trails

Areas special for you, designed to help keep movement in your life...

Find peace in the fields around you, whenever you like...

Whenever you want to enjoy a relaxed and colorful weekend or a different Sunday breakfast; a natural wonder, whose natural beauty changes every season is right around the corner. The rural life concept in an approximately 47 acres of forest area across ÇamlıYaka Konakları will await you with children's playgrounds, volleyball courts, pergolas, hiking areas and the nature where you will enjoy life with your beloved ones.

"The mentioned life and pleasure area is an independent project and not a promise or commitment from Ege Yapı Avrupa Real Estate Development Construction Contracting Investment C.O. For this reason, the life and pleasure area indicated depends entirely on the discretion/construction of the related institution. Ege Yapı Avrupa Real Estate Development Construction Contracting Investment C.O. is not liable in case of cancellation or late completion of this area."

Get in touch with nature without leaving the city

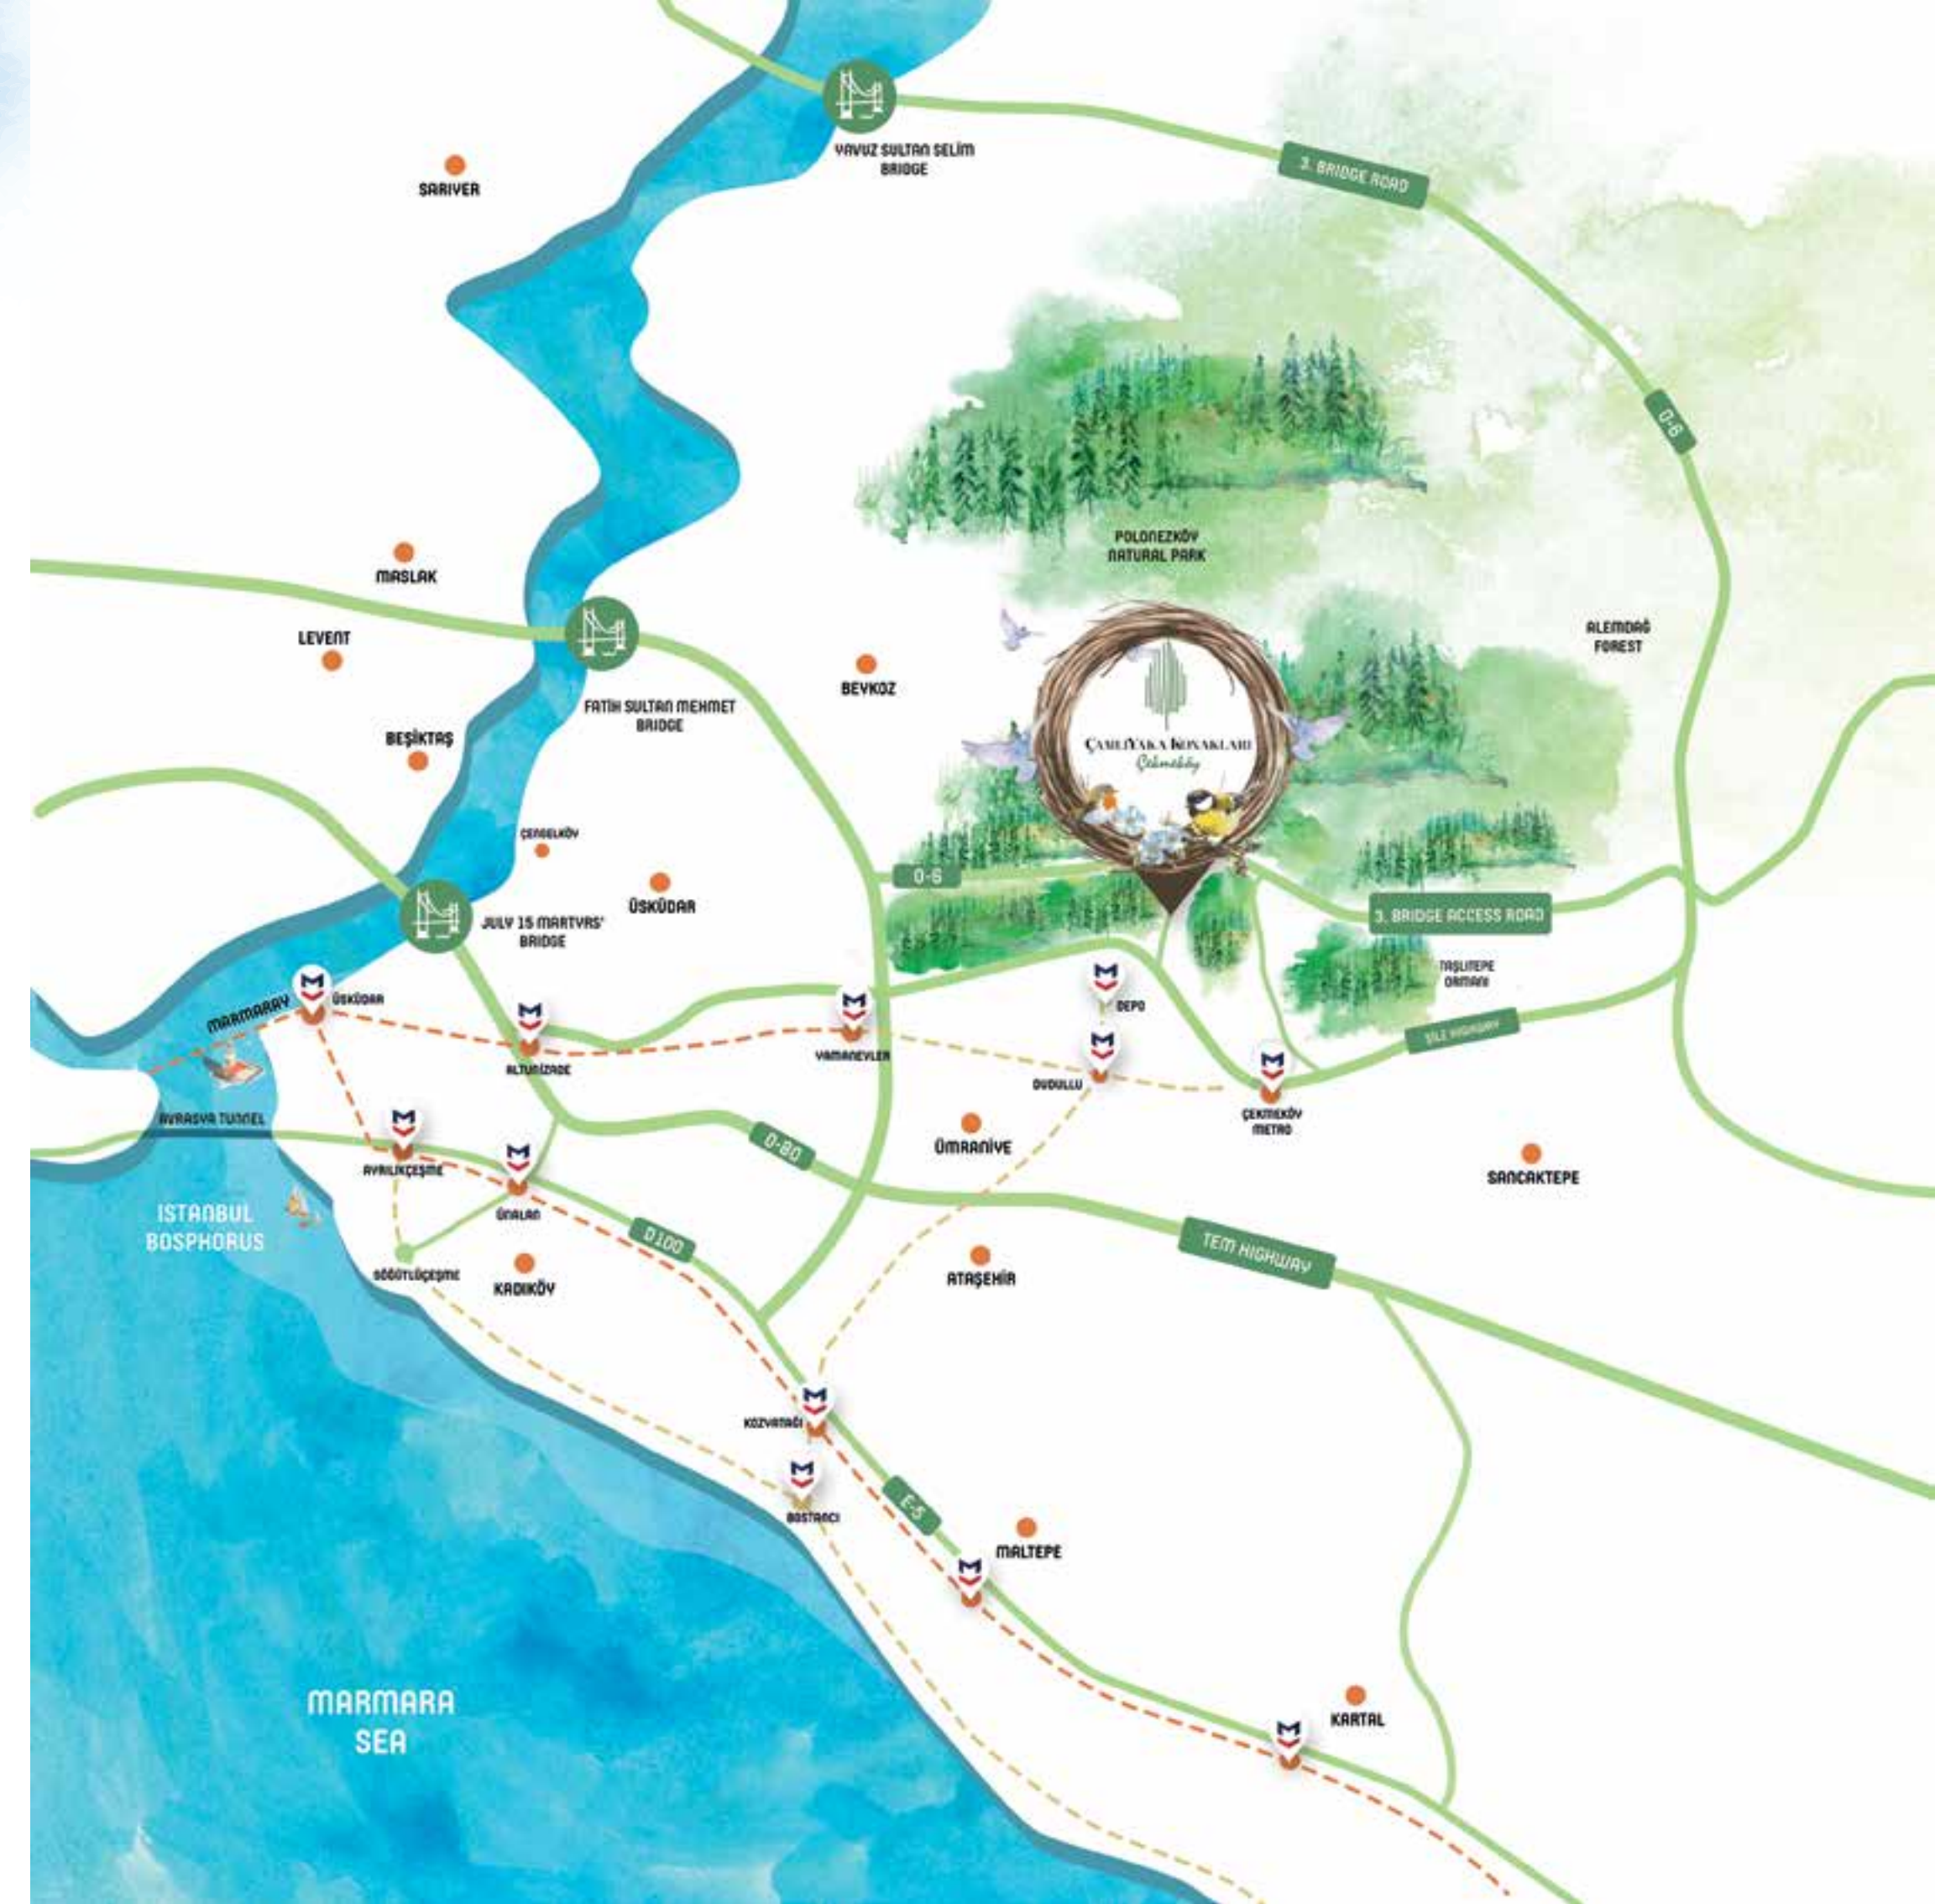

In the city, but outside the chaos; a life awaits that puts you in the middle of everything but keeps you away from the monotony in a combination of natural and city vibes...

ABOUT US

Ege Yapi, which was founded in 2006, has successfully completed construction and real estate development of various projects including houses, offices, shopping centers and educational institutions in domestic and overseas markets.

As Ege Yapi, we have committed ourselves to develop privileged projects facilitating people's lives and providing a better life quality. While fulfilling our responsibility towards our country and future generations, we aim for producing projects and making investments in line with universal requirements of our era, contributing to the growth of our country as well as providing employment opportunities. Being aware of the fact that natural resources are very valuable treasures for us, we shape our projects under the concept of a sustainable environment. We break the tradition both in architectural solutions and in social responsibility projects in which we take part, and we endeavor to make each business we carry on the best in its field.

With the projects we developed at city centers or at locations near the centers, our principle is to contribute not only to our own projects but also to the environment around us. We believe in living the city instead of running away from it, blending into the crowd with protecting the identity instead of being separated, existing along with your environment instead of in your own world, developing and improving without losing your essence, preserving the good while working for the better, reaching for the best without making concessions.

With projects such as Pega Kartal, İz Tower, İz Park, Shangri-La Bosphorus Hotel, Sheraton Grand Samsun Hotel and especially Turkey's first fully functional integrated living project Batışehir, Ege Yapi has drawn the attention of investors and the business world with over 1 million m² in successful construction. Beyond the construction of 1 million m² in just 4 years, Ege Yapi also has reaching with ongoing construction projects in Kordon İstanbul, Cer İstanbul, Premium Ofis Beylerbeyi, ÇamlıYaka Konakları, Maslak Square, Beyoğlu, Ataşehir and Çekmeköy, all totalling 2 million m².

The amlıYaka Konakları ekmeköy catalog has been prepared to promote and give information about the social facilities, social opportunities and independent sections for the whole project; it does not give the buyer any rights of request, nor is it a commitment by the seller. Since all the information, visuals, perspective views of the project, and special drawings on the visual reforestation have been added to the catalog purely for publicity and information purposes and are not commitments, Ege Yapı Avrupa Real Estate Development Construction Contracting Investment C.O. reserves the right to apply any technical changes that they feel are required, without any prior notice. Therefore, the current state of the project at the end of the determined period is the principle. Copyrights of any kind of visual used in the project in this catalog belong to Ege Yapı Avrupa Real Estate Development Construction Contracting Investment C.O. and cannot be used without permission.
